NATIONAL COUNCIL OF THE UNION OF BURMA

Position Statement of the Ninth NCUB Congress

1. The international community, international and domestic forces, including the National Council of the Union of Burma (NCUB), have demanded meaningful dialogue for many years for resolving the various problems besetting Burma. However, the military clique has rejected entirely all the demands and is preparing to hold a sham election in November 2010 to put life into 2008 Constitution for legitimizing the system of military dictatorship. For that reason, the NCUB 9th Congress has commanded for opposition to the 2008 Constitution, the election to be held in accordance with the Constitution and its results.
2. We, the NCUB Congress, heartily welcomes the National League for Democracy's (NLD) decision to boycott the 2010 election and we will help and support every movement opposing the 2008 Constitution and the 2010 election by parties, including the NLD, which continue to uphold the 1990 election results.
3. We advise the political parties preparing to contest the 2010 election, under one-sided manipulation by the SPDC, to reconsider their election related policies, and collectively boycott the election.
4. We earnestly support and honor the cease-fire forces, upholding their stand to maintain their armies and political parties for protection of their peoples, for their courageous rejection of pressure by the SPDC military clique to transform their armies to Border Guard Force.
5. We welcome, support and are ready to cooperate in the efforts by the United States., United Kingdom, Czech Republic, Australia and Slovakia to have the U.N. formed an Inquiry Commission for investigating war crimes and crimes against humanity perpetrated by the SPDC in Burma.
6. We deliberated on ways to overcome the political, economic and social problems faced by the country and the difficulties and challenges faced by the democratic and ethnic nationality movement. We are certain that the key to overcoming the challenges of today is to build up resolutely unity of the various forces and to lay down and carry out correct action plans. The NCUB accepts it as its duty to establish firm leadership of the various forces and a united movement.
7. Accordingly, at the 9th Congress we, the NCUB, are to make utmost effort for coordinating our struggle with all the anti-military clique forces and, for establishment of the Democratic Federal Union, struggle on against the military clique and the system of military dictatorship.

The Ninth Congress
National Council of the Union of Burma
September 1, 2010
